

IN THE BOX

- EVO5 PINGuard
- Fitting Template
- Surface cleaning sachets
- Surface Primer
- Fitting key
- Instruction manual

EVO5

DESCRIPTION

The EVO5 is a variant of the EVO3 but has been designed to meet the strict ZKA security regulations. It uses the same complex polarising lens as the EVO3 which also covers part of the PIN Pad. This lens allows only the ATM user to view the PIN pad clearly but blurs the view of the PIN pad when viewed at an angle. The semi opaque sides obscure the view but allow enough visibility to stop devices being fitted on the inside of the PINGuard. Installation takes minutes. No alterations need to be made to the ATM; no drilling or physical fixing is required.

FEATURES

- Ergonomically designed to help disabled users
- Meets ZKA regulations
- Polarised lens (combats shoulder surfing)
- Retro fitted in minutes
- Fits almost any ATM cash machine
- Made from highly durable fire retardant shatterproof polycarbonate
- No drilling or physical fixings required
- All components replaceable
- Bead blasted sides to increase opacity and reduce adhesion

SPECIFICATIONS

Unit size and weight	Width 257mm (10.11in) Height 81mm (3.2in) Depth 152mm (4.69in) Weight 320g (0.7lb)
Unit Packaging size and weight	Width 263mm (10.35in) Length 220mm (8.66in) Height 85mm (3.35in) Weight 0.8kg (1.8lb)
Carton Size and weight (10 off)	Width 450mm (17.72in) Length 273mm (10.75in) height 425mm (16.73in) Weight 8kg (17.64lb)
